

ONDŘEJ BAŠE

AI ENGINEERING · FRONTEND · QUALITY ASSURANCE

Prague, CZ +420 603 447 727 web@ondrejbase.cz ondrejbase.cz linkedin.com/in/ondrej-base
github.com/ondrejbasegit

AI engineer and frontend developer with 14 years in software delivery and quality assurance. I design and implement AI agent systems for development and testing, build application frontends in React and TypeScript, and deliver internal training on AI tooling and Agile methodologies. ISTQB certified. Sector experience: banking, enterprise software, business intelligence, video streaming, CRM and ERP.

EXPERIENCE

Software Engineer — Digital, Data & AI Unit		EMBEDIT · JUN 2026 — PRESENT
■ AI agents for development and testing — main area of responsibility. Design, configuration and evaluation of agent systems that generate, review and test code, including scoping, guardrails, prompt engineering and output quality measurement. ■ Release-management application — responsible for the frontend. Responsive interface with a live deployment timeline and a task-management system used by the release operator to run the deployment and coordinate the team. ■ AI tooling for a large corporate client — a set of AI tools for QA engineers and business analysts, and AI-driven test automation. Responsible for the design and implementation of the AI components and their evaluation. ■ Internal training — courses and workshops on AI tooling and on Lean and Agile methodologies; workflow design and mentoring for delivery teams.		

EARLIER ROLES

2024 — 2026	Senior QA Engineer · EmbedIT, Prague Quality assurance for banking delivery teams. Test strategy, test design and automation; introduction of AI tooling into the testing process.
2022 — 2024	Group QA Lead · FEG, Prague Promoted from Senior Group Test Analyst. Responsible for the group's QA function: test strategy, processes and standards across products and teams.
2021 — 2022	Senior QA Engineer · Wrike, Prague Business intelligence, analytics and reporting for large enterprise clients. Built the team's full regression suite (500+ cases) as the basis for automation. REST API testing, QA documentation, Scrum and Kanban adoption.
2019 — 2021	QA Test Analyst → Senior QA Engineer · Deltatre, Prague Video-on-demand applications for iOS, Android, Apple TV, Android TV, Fire TV, Roku, Tizen, WebOS and web browsers. Developed a Python desktop tool used by the whole QA team and Bash automation for build deployment.
2012 — 2019	Software Consultant, Analyst, Tester · Synergit, Hradec Králové Started as junior tester, later consultant responsible for an international CRM and ERP programme. Technical analysis, SQL scripting and reporting, end-user training abroad.

SKILLS

AI ENGINEERING Agent design and orchestration, prompt engineering, AI-driven test automation, evaluation and guardrails, Claude and GitHub Copilot in production workflows	FRONTEND React, TypeScript, JavaScript, HTML / CSS, responsive UI, design systems, UI/UX design
ENGINEERING Python, Bash, SQL, REST APIs, Postman, Git / GitHub, CI pipelines, Docker, self-hosted Linux infrastructure	QUALITY & DELIVERY Test strategy, test design and automation, Lean and Agile methodologies, Scrum / Kanban, Jira / Confluence, workflow design, training and mentoring
